- Holding tank:** 400 l
- Materials:** infused and vacuum glass polyester PVC sandwich

An elegant and compact double-decker

This unit includes all the same generic qualities as the other models of the brand:

- Cutting edge styling, good ergonomics , 'loungé spirit', 360° vision.

But this boat also shows some specific characteristics (which as usual, can be tuned and customized for each ship owner) :

- Incredibly large deck areas dedicated to passengers, with a very large flybridge.

- The saloon is huge, and well protected.

- The helm station has a raised position in front of the mast , giving to the helmsman an unobstructed vision and easy ropes management.

- There is a toilet for disabled on main deck.

- As an option, a bimini can be added on the top of the flybridge.
